

Shoe Sanitizing Mat

This disinfection mat is designed to sanitize shoes and prevent the spread of germs and bacteria. It utilizes a two-mat system: one to disinfect shoes with a sanitizing solution and another to dry them.

Product Overview

Professional Sanitization Solution

This shoe sanitizing mat system is engineered to effectively reduce the spread of germs and bacteria in both residential and commercial environments. The dual-mat design features a specialized section for applying sanitizing solution to footwear, followed by a secondary mat designed to dry shoes thoroughly. It is an essential tool for maintaining high standards of hygiene in high-traffic entryways and professional facilities.

Product Features

System Components

- Sanitizing Mat (Wet)
- Drying Mat (Dry)

Key Benefits

Sanitizes • Dries • Prevents Germ Spread

Best For

Residential, Commercial, High-traffic areas, Hygiene control
