

Short Machine Tap for Metric ISO529 Threads

This short machine tap is designed for creating metric ISO529 threads. It features straight flutes to facilitate efficient chip removal during machine tapping applications.

Product Overview

Professional Threading Solution

This short machine tap is specifically engineered for creating metric ISO529 standard internal threads. Designed for precision and reliability, it features a straight flute geometry that ensures efficient chip removal during the machining process. It serves as an essential tool for professional machine tapping applications in various manufacturing environments.

Technical Specifications

Thread Standard

Metric • ISO529

Flute Geometry

Straight Flute

Primary Application

Machine Tapping
