

Short Throw Projector Wall Mount

This short focal projector wall bracket is designed for mounting projectors with a short throw lens. It provides a stable and adjustable platform for optimal image projection.

Product Overview

Versatile Wall-Mount Solution

This short focal projector wall bracket is engineered to provide a stable, adjustable platform for short-throw projectors in professional settings. Designed for classrooms, conference rooms, and home theaters, it ensures clear, distortion-free projection. The bracket includes an adjustable arm that extends from the wall to optimize space and minimize shadows, offering a secure mounting solution for various projector sizes and weights.

Technical Specifications
