

Side-by-Side Refrigerator with Vertical Handle

This side-by-side refrigerator features a sleek, modern design with a white finish. It is equipped with a vertical handle between the two doors and a control panel on the left door.

Overview

Advanced Cooling Performance

This side-by-side refrigerator is designed for modern kitchens, featuring a sleek frameless tempered glass door panel and a convenient vertical handle. It utilizes advanced inverter technology and intelligent temperature control to ensure optimal food preservation. With a dual-circuit cooling system and omni-directional airflow, it maintains consistent conditions throughout the unit while providing antibacterial protection.
