

Side Imaging Fishfinder Chartplotter Combo

This combo fishfinder and chartplotter features side imaging sonar for detailed underwater views. Integrated GPS and chartplotting capabilities allow for precise navigation and waypoint management.

Overview

Advanced Navigation and Sonar System

This sophisticated fishfinder and chartplotter combo is designed for serious anglers and boaters who require detailed underwater visibility. Featuring advanced Side Imaging and DualBeam PLUS sonar technology, it provides a comprehensive view of the environment to the sides of the boat. The integrated GPS and chartplotting capabilities ensure precise navigation, while the high-resolution wide-screen display offers clear viewing of sonar returns and navigation data.
