

Side Mirror Turn Signal Indicator

Side mirror turn signal indicators provide additional visibility for driver intent. Each indicator has integrated LED lighting and a clear lens with a black housing.

Product Overview

F10 Side Mirror Indicator

This side mirror turn signal indicator is designed specifically for the F10 model, providing a direct replacement for enhanced vehicle visibility. Each unit features a clear lens with integrated high-efficiency LED lighting housed in a durable black casing. The assembly comes pre-wired with a standard blue connector, ensuring a straightforward and reliable installation process for automotive maintenance and upgrades.
