

# Side Suction Kitchen Range Hood

This side suction range hood is designed for effective kitchen ventilation. It features a multi-slotted filter system and bright LED lighting.

## ADDITIONAL IMAGES

## Product Overview

### Professional Grade Ventilation

This side-suction kitchen range hood combines durable stainless steel and tempered glass for a modern, sleek aesthetic. Engineered for high performance, it delivers a powerful 1100m<sup>3</sup>/h airflow while maintaining operational noise levels under 68dba. Advanced features like motion-sensor touch controls, heat-based auto-cleaning, and energy-efficient LED lighting ensure both convenience and a cleaner cooking environment for any commercial or professional kitchen space.

## Performance Metrics

### Core Metrics
