

Side Suction Kitchen Range Hood with Electronic Display

This side suction hood is designed for kitchen ventilation. It effectively removes smoke, steam, and odors during cooking.

Overview

High-Efficiency Side Suction Ventilation

The CXW-218-C12T side suction range hood is engineered for modern kitchens that demand superior air quality. Its advanced side suction design maximizes the capture area, efficiently extracting smoke, steam, and cooking odors directly at the source. Featuring an intuitive electronic display and touch-sensitive controls, this unit combines sleek aesthetics with user-friendly operation for a seamless cooking experience.
