

# Signal Transmission Communication Cable

This communication cable is designed for reliable signal transmission. It features durable construction with multiple layers of insulation and shielding to minimize interference and ensure optimal performance.

## Overview

### High-Performance Signal Transmission

This communication cable is engineered for reliable signal transmission across various industrial and commercial applications. It features a robust construction with multiple layers of insulation and shielding specifically designed to minimize electromagnetic interference. The cable's durable build ensures dependable connectivity and optimal performance in demanding environments.

## Compliance & Standards

### Certifications

UL E156135, CSA LL0486, UL Subject 758, UL 1581, CSA C22.2 No. 210.2

## Technical Specifications

### Key Features

- Multiple layers of insulation
- Advanced shielding for interference reduction
- Robust signal integrity
- Durable outer construction

### Cable Type

AWM 1354

## Application

### Usage Suitability

Signal Transmission • Communication Systems • Industrial Connectivity
