Product Overview

High-Performance Abrasive Solution

These waterproof abrasive sheets feature high-grade silicon carbide grains for superior sharpness and consistent material removal. Designed for both wet and dry sanding, they utilize a premium kraft or latex paper backing that offers excellent flexibility and water resistance. Ideal for automotive painting, woodworking, and metal finishing, these sheets provide professional-grade results across a wide range of surfaces.

Physical Properties

Available Sheet Sizes

- 230mm x 280mm
- 230mm x 260mm

Backing Material

Imported kraft paper or latex paper

Technical Specifications

Quality Standards

ISO 9001

Abrasive Grain

High-grade silicon carbide

Coating Process

Electro coated

Available Grit Sizes

120, 180, 500, P2500

Applications

Suitable Surfaces

- Car paint putty
- Metal surfaces
- Wood
- Plastic
- Painted surfaces

Packaging and Logistics

Standard Pack Quantity

100 sheets
