

Silicon Carbide Waterproof Abrasive Paper

Abrasive paper is suitable for sanding and finishing various materials. It is available in various grit sizes to suit different stages of sanding, from coarse material removal to fine finishing.

Product Overview

Professional Abrasive Solution

The CP35L Silicon Carbide Waterproof Abrasive Paper is designed for high-performance sanding and finishing tasks across a wide range of materials. These sheets provide a consistent, effective abrasive surface, making them ideal for smoothing wood, metal, plastic, and painted surfaces. With versatility suitable for woodworking, metalworking, and automotive refinishing, this abrasive paper supports both coarse material removal and fine surface finishing.
