

# Silicone Nursery Night Light with Touch Sensor

This nursery night light is shaped like a radio and TV. Made from food-grade silicone, it features a touch sensor, color-changing LEDs, and can be powered by batteries.

## ADDITIONAL IMAGES

## Product Overview

### Charming Nursery Illumination

This nursery night light combines a playful design with practical features for both parents and children. Crafted from safe, food-grade silicone, it provides a soft, comforting glow perfect for bedrooms or hallways. The portable, cordless design ensures ease of use, while the intuitive touch sensor allows for effortless color changing.
