

Silver Electric Cargo Tricycle with Rear Cargo Bed

This electric tricycle features a front scooter-style design with a comfortable seat and handlebars. It includes a cargo bed in the rear, suitable for carrying goods or passengers.

Product Overview

Versatile Electric Cargo Solution

This electric cargo tricycle combines a stable three-wheel chassis with a functional rear cargo bed designed for local transport needs. Featuring a scooter-style front interface with comfortable controls, it offers a practical solution for moving goods or passengers efficiently. Its silver finish, integrated lighting, and mirror set make it well-equipped for varied operational environments.
