

Silver Frame Television with Integrated Speakers

This television features a screen enclosed in a silver frame, complemented by integrated vertical speakers. A dark gray bottom bezel adds a touch of elegance to the design.

Product Overview

Professional Display Solution

This silver-framed television is designed for high-quality visual output with an emphasis on integrated audio performance. The sleek design features dual side-mounted speakers that provide a robust sound experience without the need for external hardware. Ideal for professional settings, the unit combines a refined aesthetic with intuitive control interfaces for reliable daily operation.
