

Silver Maxi-Scooter with Backrest

This silver maxi-scooter is designed for urban commuting and touring. It is equipped with a single-cylinder engine, automatic transmission, and hydraulic disc brakes.

Overview

Urban Mobility & Comfort

The SL125T-8 is a versatile maxi-scooter designed for both urban commuting and touring. Featuring a comfortable seating arrangement with a dedicated passenger backrest and a large windscreen, it prioritizes rider and passenger comfort. Its robust construction supports a maximum load of 150kg, making it a reliable choice for daily transportation needs.
