

SIM Card Data Backup Device

This compact and lightweight device backs up and restores phonebook data from SIM cards. It supports data exchange and stores up to 250 phone records with its 8KB memory.

Overview

Compact SIM Card Data Management

This SIM Card Backup Device is a portable, independent tool designed to secure your mobile data without the need for a PC or PDA. It allows users to easily backup and restore phonebook data directly from a SIM card, providing a reliable safeguard against data loss. With its built-in LCD screen and simple interface, it is an efficient and cost-effective solution for managing contacts across different SIM cards.
