

Single Burner Gas Cooktop

This single burner gas cooktop features stainless steel construction. It is designed for portable or countertop cooking applications.

Product Overview

Professional Single Burner Gas Cooktop

This high-quality single burner gas cooktop is designed for efficient, portable cooking applications. Featuring a durable stainless steel construction and a robust black enamel support structure, it is built to withstand regular use in professional or commercial kitchens. The unit includes a precision-engineered circular burner with a central brass nozzle, ensuring consistent heat distribution and reliable flame control via the front-mounted adjustment knob.
