

Single-Cylinder Air-Cooled Diesel Engine

This single-cylinder diesel engine is air-cooled and designed for horizontal installation. It features a 65x60mm bore and stroke and a swirl combustion chamber.

Product Overview

Reliable Power Solution

The Z165F is a robust single-cylinder, horizontal, 4-stroke diesel engine designed for versatile industrial and agricultural applications. Featuring an air-cooled design, this engine delivers consistent performance with a displacement of 0.199 liters. Engineered for durability and efficiency, it utilizes a swirl combustion chamber to optimize fuel usage.

Technical Specifications

Model	Z165F
Engine Type	Single cylinder, horizontal, 4-stroke
Combustion System	Swirl combustion chamber
Bore x Stroke	65 x 60 mm
Displacement	0.199 litres
