Overview

Reliable Single-Cylinder Power Solution

This single-cylinder diesel engine is engineered for consistent performance in demanding industrial and power generation applications. Featuring direct injection technology and robust construction, it offers high fuel efficiency and operational longevity. Designed for ease of maintenance, this unit provides a dependable power source for various professional machinery and equipment needs.

Technical Specifications

Maximum Output

5.88 KW
Power Output

8 HP
Horsepower

Engine Model	ZH175 / DH170
Fuel Type	Diesel
Rated Speed	2600 RPM
Net Weight	60 KG

Features

Key Features

- Direct Injection Technology
- Single-Cylinder Design
- Industrial Grade Durability
- Easy Maintenance Architecture

Logistics

Packaging Details

Wooden Crate • Metal Reinforcements • Secure Banding
