

Single-Cylinder Diesel Engine S195N

The S195N is a single-cylinder diesel engine designed for industrial and agricultural use. It features water cooling and hand starting.

Overview

Robust S195N Industrial Engine

The S195N is a single-cylinder, 4-stroke diesel engine engineered for reliable performance in agricultural and industrial machinery. Featuring a horizontal configuration and advanced water-cooling system, it is designed to provide consistent power for water pumps, generators, and other equipment. Its simple construction allows for straightforward maintenance, ensuring durability and reduced operational downtime in demanding environments.

Technical Specifications

Cylinder Configuration	Single Cylinder
Engine Stroke	4 Stroke
Cooling System	Water-cooled
Fuel Type	Diesel

Operational Details

Starting Method	Handstarting
Origin	Jiangsu, China
Shipping Packaging	Wooden case
