Product Overview

Robust Single-Cylinder Power Solution

The ZR170 is a high-performance single-cylinder, horizontal, 4-stroke diesel engine engineered for reliability and durability. Featuring a water-cooling system and efficient swirl combustion chamber design, it provides consistent power for agricultural machinery, small generators, and industrial equipment. This compact unit is built for easy maintenance and long-term service life in demanding environments.

Technical Specifications

Performance Metrics

4.05 kW

Rated Output

2600 RPM

Rated Speed

0.231 litres

Displacement

60 kg

Net Weight

Engine Configuration

- Model: ZR170
- Type: Single cylinder, horizontal, 4-stroke
- Combustion System: Swirl combustion chamber
- Cooling System: Water cooled
- Starting Method: Hand start
- Bore: 70 mm
- Stroke: 60 mm

Physical Dimensions

Overall Dimensions

400 x 360 x 520 mm
