Product Overview

ZR175 Industrial Diesel Engine

The ZR175 is a robust single-cylinder, horizontal 4-stroke diesel engine engineered for reliable performance in demanding industrial and agricultural environments. Featuring an efficient water-cooling system, this unit maintains optimal operating temperatures even during continuous heavy-load tasks. Its compact design and versatile power output make it an ideal choice for powering small-to-medium machinery, including generators, irrigation pumps, and transport equipment.

Technical Specifications

Rated Power

5.15 kW
Power Output

2600 r/min
Rated Speed

Engine Configuration	Single Cylinder, Horizontal, 4-Stroke
Bore x Stroke	75 x 70 mm
Total Displacement	0.309 L
Combustion System	Swirl Combustion Chamber

Operation & Features

Cooling Method

Water-Cooled

Typical Applications

- Power Generators
- Water Pump Sets
- Small Tractors
- Transport Tricycles
- Marine Machinery

Starting Method

Manual Hand Crank, Electric Start
