

Single Drum Walk-Behind Road Roller

This single drum road roller features a hydraulic pump and a stainless steel sprinkler pipe. It is ideal for small to medium-sized compaction jobs, such as asphalt patching, sidewalk construction, and landscaping projects.

Product Overview

Compact Compaction Solution

This single drum walk-behind road roller is engineered for easy operation and efficient soil and asphalt compaction. Designed for versatility, its robust engine and durable steel drum make it an ideal choice for small to medium-sized projects, including asphalt patching, sidewalk construction, and landscaping. The compact design ensures excellent maneuverability, allowing operators to work effectively in confined spaces.

Certifications

Quality Standards

SGS, CE, Bureau Veritas

Key Features

Typical Applications

- Asphalt patching
- Sidewalk construction
- Landscaping projects
- Confined space compaction

Design Highlights

Easy Operation • Robust Engine • Durable Steel Drum • User-Friendly Controls
