

Single-Ended Tubular Halogen Light Bulb

This is a single-ended tubular halogen light bulb featuring a coiled tungsten filament and a clear glass envelope. The bulb is suitable for task, accent, and general lighting, providing bright, white light.

Overview

High-Performance Illumination

This single-ended tubular halogen light bulb is engineered for versatile lighting solutions, ranging from task and accent lighting to general illumination needs. Featuring a clear glass envelope and a durable coiled tungsten filament, it delivers a bright, white light output. The design ensures excellent color rendering, making it an ideal choice for professional environments requiring reliable and high-quality light.
