

Single Gang Doorbell Push Button Wall Switch

This single gang doorbell switch is designed with a classic push-button. The switch is made from fire-resistant PC material and has been tested to ensure safety and durability.

Product Overview

Elegant and Durable Doorbell Switch

This single-gang doorbell switch features a classic, minimalist design with a large push-button actuator, making it an elegant addition to any professional or residential environment. Built with high-quality, fire-resistant materials, it ensures safety and reliability with a tested mechanical lifespan of at least 40,000 cycles. Designed for versatility, this switch supports flexible modular combinations and is suitable for a wide range of applications, from hotels and offices to public spaces.
