Product Overview

Versatile Vertical Access Solution

This climbing work platform offers a flexible and efficient solution for vertical access in construction and maintenance projects. Designed with a modular structure, the width and length can be adjusted to meet specific job site requirements, while the mast sections, rack, and pinion components are interchangeable with standard building hoists. The platform eliminates the need for a foundation, allowing for rapid deployment and easy relocation between working sites.

Performance Metrics

Key Performance Metrics

1000 kg

Rated Capacity (Single Mast)

8.3 m/min

Rated Lifting Speed

100 m

Max Working Height

Technical Specifications

Configuration Comparison

| Feature | Single Mast | Double Mast |
|--------------------------|-----------------|-------------|
| Rated Capacity | 1000 kg | 1700 kg |
| Platform Length | 8.67 m | 20.34 m |
| Max Width | 2.5 m | 2.5 m |
| Motor Power | 2x5.5 kW | 4x5.5 kW |
| Standard Section Size | 1508x500x500 mm | |
| Max Height (Stand-alone) | 7.5 m | |

Motor & Electrical

Motor Specifications

- Motor Type: YZZ 132 S1-4
- Rated Rotation Speed: 1400 r/min
- Rated Current: 13.5 A
- Brake Torque: 100 N.m
