

# Single Monitor Desk Mount with Spring Arm

This monitor desk mount elevates screens to an ergonomic height, improving posture and reducing strain. Its swivel function enables easy screen sharing.

## Product Overview

### Ergonomic Single Monitor Solution

The HDMS002-1 is a robust spring-counterbalanced monitor mount designed to enhance office ergonomics and workspace efficiency. It supports flat-screen monitors between 12 and 32 inches, providing effortless height and angle adjustments with a light touch. By elevating your display, this mount helps reduce neck and shoulder strain while freeing up valuable desk space for your peripherals.
