

Single-Phase Electricity Meter

This single-phase electricity meter is designed for measuring electrical energy consumption. It supports 220V and 10(40)A at 50Hz and complies with GB/T15283 standards.

Overview

Reliable Energy Measurement

The DD862-4 single-phase electricity meter is a precision instrument designed for accurate electrical energy consumption measurement. Engineered for standard 220V, 50Hz power systems, this meter provides dependable performance for residential and light commercial monitoring. It is built to comply with the GB/T15283 standard, ensuring consistent and reliable operation for long-term energy management.

Technical Specifications

Model Number	DD862-4
Rated Voltage	220 V
Rated Current	10(40)A
Frequency	50 Hz
Pulse Constant	3600 imp/kWh

Compliance

Standards Compliance	GB/T15283
