Product Overview

Professional Grade Single Row LED Light Bar

This high-performance single-row LED light bar is engineered for versatility and durability in demanding vehicle applications. Featuring advanced thermal management and robust construction, it provides a powerful 1500lm light output with a 6500K color temperature for superior visibility. Designed for reliability, the unit is fully sealed to IP68 standards, ensuring peak performance across extreme environments.

Key Performance Metrics

Core Lighting Specs

| | | |
|----------------------|---------------------------------|------------------------------------|
| 22 W Power | 1500 lm Luminous Flux | 6500 K Color Temperature |
|----------------------|---------------------------------|------------------------------------|

Technical Specifications

| | |
|---------------------|--------------------|
| Dimensions | 258 x 61 x 71 mm |
| Input Voltage | DC 12-36V |
| LED Chip Technology | CREE, Latticepower |

Construction & Durability

Material Composition

- 6063 Aluminum Housing
- PC Cover
- High-Efficiency Reflectors

Ingress Protection

IP68

Operating Temperature

-40°C to 80°C

Expected Lifespan

50000 hours

Installation & Options

Appearance Colors

Black, Red, Yellow

Wiring Configuration

Regular Outlet (Positive & Negative)
