

Single-Serve Electric Drip Coffee Maker

This compact coffee maker is designed for individual use, brewing a single cup directly into a standard mug. It features simple operation and a removable drip tray for easy cleaning.

Product Overview

Compact Single-Serve Brewing

This electric drip coffee maker is designed for high-efficiency, single-cup brewing in space-constrained environments. Its streamlined operation makes it an ideal solution for individual use in home kitchens, professional office desks, or dormitories. Featuring a removable drip tray, the unit ensures effortless maintenance and cleanliness.
