

Single-Serve Espresso Machine for Capsules and Ground Coffee

This compact espresso machine is designed for single-serve use. It features a removable 0.6L water tank and is compatible with Nespresso capsules, Dolce-Gusto capsules, coffee pods, and ground coffee.

Overview

Professional Single-Serve Brewing

This compact espresso coffee maker is engineered for efficient, single-serve coffee preparation in both home and office environments. Featuring a sleek, modern black finish, the unit integrates a removable water reservoir for effortless maintenance and a versatile brewing system compatible with standard espresso capsules. Its streamlined design ensures high-quality coffee extraction while occupying minimal counter space.
