

Single-Serve Portable Blender

This compact personal blender is designed for single-serving smoothies and shakes. Its blending jar doubles as a travel cup and is made of BPA-free material for safe food preparation.

Product Overview

Compact Performance for On-the-Go Lifestyles

This 300-watt portable blender is designed for efficiency and convenience, making it an ideal solution for single-serving smoothies and shakes. Featuring a modern, colorful ABS body and durable Tritan construction, it combines aesthetic appeal with robust, BPA-free safety standards. With one-touch blending and an integrated ice-crush function, this unit offers professional-grade performance in a footprint perfect for small kitchens or travel.
