Overview

Compact Single-Serve Blending Solution

This versatile personal blender is designed for efficiency and convenience, making it the perfect companion for quick smoothies, protein shakes, and blended drinks. Featuring a powerful 300W motor and durable stainless steel ice-crushing blades, it handles daily blending tasks with ease. The compact design includes a 750ml jar that doubles as a portable drinking cup, ensuring a seamless transition from blending to on-the-go consumption.
