

Single-Speed Bicycle Crankset

This single-speed crankset is designed for optimal performance. It is constructed from durable steel and finished with CP/ED.

Product Overview

Durable Single-Speed Performance

This single-speed bicycle crankset is engineered for reliability and consistent performance in various cycling environments. Constructed from high-quality steel with a specialized CP/ED finish, the components offer superior corrosion resistance and durability. The design accommodates multiple gearing configurations and crank arm lengths to suit a wide variety of bicycle models and rider preferences.

Technical Specifications

Available Crank Arm Lengths

- 165
- 170
- 178

Chaining Teeth Count

44T, 46T, 48T, 52T

Material and Finish

Component Materials

Component	Material	Finish
Crank Arm	Steel	CP/ED
Chainring	Steel	Not Specified
Chain Guard	Steel	CP/ED

Model Compatibility

Compatible Model Series

C4631-CW/CZ • C526-CZ • C48F-CZ • C46F-CZ • C48M-CZ • C46M-CZ • C482-CZ • C462-CZ • C48S-CZ • C46S-CZ
