

# Single-Speed Bicycle Freewheel Sprocket

This is a single-speed bicycle freewheel sprocket. It features a robust steel construction for durability and reliable performance.

## Product Overview

### High-Performance Single-Speed Component

This single-speed bicycle freewheel sprocket is engineered for durability and consistent performance in demanding drivetrain applications. Constructed from robust, high-quality steel, it ensures long-term reliability and efficient power transfer. Designed for compatibility with standard freewheel hubs, this component provides a straightforward solution for single-speed bicycle maintenance and builds.

## Technical Specifications

### Key Features

- Robust steel construction
- High durability
- Reliable drivetrain performance

Drivetrain Compatibility	Single-speed
Material	Steel
Hub Compatibility	Standard Freewheel Hubs
