

Single Wheel Barrow with Metal Frame

This single-wheel barrow features a sturdy metal frame and a deep tray. It is designed for transporting materials in construction, gardening, and other applications.

Product Overview

Heavy-Duty Single Wheel Barrow

This single-wheeled barrow is engineered for demanding tasks in construction, gardening, and landscaping. Featuring a robust metal frame and a deep, rectangular tray, it provides reliable support for transporting heavy or bulky materials across various terrains. Designed with ergonomic handles and a pneumatic tire, this trolley ensures comfortable grip, precise control, and smooth mobility for professional and heavy-duty applications.
