

Sintered Turbo Diamond Saw Blade

This sintered turbo diamond blade is engineered for swift, accurate cutting across diverse materials. Its robust build quality and enhanced diamond matrix contribute to a prolonged service life and effective material processing.

Product Overview

Versatile Sintered Turbo Diamond Blade

This high-performance sintered diamond blade is engineered for fast, free, and smooth cutting across a wide range of building materials including brick, tile, concrete, and stone. Designed for use with hand-held circular saws and angle grinders, it offers exceptional durability through its optimized diamond matrix. The blade is suitable for both wet and dry cutting applications, making it an ideal choice for professional construction, renovation, and stone fabrication work.

Technical Details

Compatible Tools

- Hand-held circular saws
- Angle grinders

Cutting Method

Wet Cutting • Dry Cutting

Applications

Brick, Tile, Concrete, Stone

Construction Method

Sintered / Cold Pressed
