

Size D Carbon Zinc Battery

This size D, 1.5V carbon zinc battery is suitable for a variety of general purpose applications. This battery is designated as model number 1801 and is ideal for low-drain devices.

Product Overview

High-Performance Size D Battery

This Size D carbon zinc battery is designed to provide reliable and long-lasting power for everyday devices. Featuring excellent anti-leakage and anti-explosion construction, it ensures safety and stability during operation. It is an eco-friendly solution optimized for consistent energy delivery in various consumer and professional electronics.

Technical Specifications

Battery Size	Size D (R20)
Voltage	1.5 V
Model Number	1801

Key Features

Key Features	Long-Lasting Power, Anti-Leakage, Anti-Explosion, Eco-Friendly
