Overview

Versatile Landscaping and Construction Solution

This skid steer loader is engineered for high-performance landscaping and construction tasks, featuring a specialized tree spade attachment for efficient tree transplanting. Designed with a robust chassis and a spacious, comfortable operator cabin, it ensures stability and productivity in demanding working conditions. The machine incorporates advanced hydraulic systems and powerful engine options to deliver precise maneuverability and reliable lifting capacity for various job site requirements.

Performance & Engineering

Lift Capability	Vertical Lift
Hydraulic System	Gear Pump system with quick-change hydraulic couplers
Control Interface	Pilot Joystick

Operator Experience

Cabin Comfort Features	Front door seal, Expanded cabin space, Seat belt, Anti-collision cage, Optional seat warmer, Optional air conditioner
------------------------	---

Maintenance

Maintenance Access	Easy-access upper and back hood design without moving loading arms
--------------------	--

Applications

Primary Applications

- Tree transplanting
- Landscaping
- Road construction
- Pavement maintenance
- Load and carry operations
