

Slide-Out QWERTY Keyboard Smartphone

This smartphone features a slide-out QWERTY keyboard for efficient typing. It is equipped with a touchscreen display and has a glossy finish with rounded edges.

Product Overview

Retro-Inspired Design with Modern Utility

This unique mobile device combines a responsive touchscreen interface with a tactile slide-out QWERTY keyboard. Designed for users who prefer physical typing, the circular keys offer a distinct tactile experience for messaging and productivity. The device features a sleek, rounded aesthetic with a high-gloss finish, merging classic mobile design elements with smartphone functionality.
