

Slider Feature Phone with Keypad

This is a slider feature phone with a numeric keypad. The device features a metallic finish and a slim profile.

Overview

Reliable Communication Solution

This slider feature phone offers a classic, durable design tailored for professional environments where reliability and simplicity are paramount. Featuring a tactile numeric keypad and a clear, functional display, it provides an intuitive user experience for essential communication tasks. Its slim, metallic-finished profile ensures it remains portable and professional, making it an excellent choice for corporate use or field operations.
