

Slider Feature Phone with Keypad

This slider-type mobile phone features a front-facing screen, physical numeric keypad, and dedicated media playback controls. The phone has a rear-facing camera with accompanying flash and speaker grill.

Product Overview

Designed for Reliability and Ease of Use

This slider-type mobile phone combines a classic physical numeric keypad with modern convenience. Featuring a dedicated media player and digital camera, it is built for users who prioritize simplicity and tactile control. Its compact slider design makes it an ideal choice for professional environments requiring straightforward communication tools.
