

# Slim LED Panel Light for Indoor Use

This LED panel light provides uniform and energy-saving illumination. Its slim profile makes it suitable for offices, retail spaces, and residential areas.

## Product Overview

### High-Efficiency Slim LED Panel

This slim LED panel light utilizes premium Samsung LED technology to provide a superior lighting solution for indoor environments. Designed as an efficient replacement for traditional grill fixtures, it delivers uniform, flicker-free illumination with a luminous efficiency of up to 100lm/W. Its versatile design supports suspension, recessed, or surface-mounted installation, making it an ideal choice for offices, retail spaces, and residential applications.

## Technical Performance

### Key Performance Metrics

<b>100 lm/W</b> Luminous Efficiency	<b>0.9</b> Power Factor	<b>80 e</b> Color Rendering Index (CRI)	<b>25000 hrs</b> Rated Lifetime
--	----------------------------	--	------------------------------------

### Special Features

Non-flicker • CE Compliant

Beam Angle	110 °
Available Color Temperatures (CCT)	3000K, 4000K, 6500K

## Installation & Compatibility

### Installation Methods

- Suspension
- Recessed
- Surface mounting

Input Voltage Range	100-240V, 220-240V
---------------------	--------------------

## Model Specifications
