Overview

Smart Air Purification Solution

This high-performance smart air purifier is designed for effective indoor air quality management in medium-sized spaces. Featuring a multi-stage filtration system including HEPA H13, activated carbon, and UV sterilization, it targets airborne pollutants, allergens, and odors. With Wi-Fi connectivity and a dedicated remote control, users can easily monitor air quality and adjust settings for a healthier environment.

Performance

Clean Air Delivery Rate (CADR)	320 m ³ /h
Effective Application Area	38 m ²
Noise Level	17.4 dB

Filtration System

Filtration Stages

- Washable Aluminum Pre-filter
- Cold Catalyst Filter
- Antibacterial Filter
- Honeycomb Activated Carbon Filter
- High Efficiency HEPA Filter

Sterilization Technology

365nm UV Light • Negative Ion Generator

Negative Ion Output

50 million/cm³

Negative Ions

Technical Specifications

Weight

Type	Weight
Net Weight	8 kg
Gross Weight	11 kg

Electrical Requirements 220V / 50Hz, 60W

Product Dimensions 370 x 195 x 650 mm

Features

Smart & Control Features Wi-Fi Compatible, Remote Control, Touch-screen Panel, PM 2.5 Sensor, Filter Replacement Reminder, Children Lock, Built-in Clock

Compliance

Official certifications including CE, CB, and ISO 9001, confirming adherence to international safety and quality standards.

Certifications CE, CB, ERP, BSCI, ISO 9001
