Overview

Comprehensive body composition analysis featuring BIA technology and smartphone app integration.

Comprehensive Health Monitoring

This smart body composition scale utilizes advanced BIA biometric technology and four high-precision sensors to provide accurate health insights. It tracks over 18 essential metrics, including BMI, muscle mass, and body water, and synchronizes seamlessly with mobile apps via Bluetooth. Designed for the whole family, it supports multiple user profiles and features a sleek, ergonomic design with a high-contrast LCD display.

Key Metrics

Tracked Indicators

Weight, Body Fat %, Body Water %, Muscle Mass, Bone Mass, BMI, Muscle Rate

Technical Specifications

Sensor Technology

4 pcs

High-Precision Sensors

Product Dimensions

310 x 319 x 24 mm

Platform Type

ITO Coated Tempered Glass

Connectivity & Compatibility

Connectivity

Bluetooth

App Synchronization

Google Fit, Fitbit, Health Fit, iOS Compatible, Android Compatible

User Experience

User Capacity

8 users

Display

LCD with white digits on black background

Supported Units

kg, lb, st

Power & Safety

System Functions

- Auto-Power-Off
- Auto-Zero
- Low Battery Indication
- Overload Indication

Safety Features

- Rounded corners
- Non-slip feet

Battery Requirement

4 x AAA batteries (included)
