Product Overview

Smart Body Composition Analysis

This advanced body composition scale features high-precision strain gauge sensors and an ITO-coated tempered glass platform for superior accuracy. Utilizing WiFi connectivity and the Tuya ecosystem, it allows for seamless health data synchronization across multiple family accounts. Beyond simple weight tracking, the device offers a comprehensive analysis of body metrics to support personalized fitness and health management.

Technical Specifications

Comprehensive view of the scale's features and technical specifications.

Dimensions	300 x 300 x 22 mm
Maximum Weight Capacity	180 kg
Power Requirements	3 x AAA batteries
Connectivity	WiFi, Tuya Smart App
Display	LED display with white digits

Key Features

Analysis Capabilities

- Body weight
- BMI
- Body fat percentage
- Water content
- Muscle mass
- Visceral fat level
- Protein mass
- Bone mass
- Basal metabolic rate (BMR)
- Physical age

Safety & Construction

6mm Tempered Glass • Rounded Corners • ITO Coating • Step-on Technology
