

Smart Digital Body Composition Scale with WiFi

This smart scale has a 180kg capacity and a 6mm ITO tempered glass platform. It connects to WiFi to track body composition data, including weight, BMI, and body fat percentage.

Overview

Smart Body Analysis

This advanced digital body composition scale features high-precision ITO tempered glass and seamless WiFi integration for effortless health tracking. Designed for modern households, it automatically syncs comprehensive body metrics directly to a dedicated app, eliminating the need to have your smartphone present during measurements. With support for multiple family users, it provides long-term trend analysis for weight, body fat, BMI, and more, making it a complete solution for whole-family health management.

Key Metrics

Capacity and Precision

180 kg

Weight Capacity

100 g

Graduation

Technical Specifications

Dimensions	300 x 300 x 21 mm
Platform Material	6mm ITO Tempered Glass
Connectivity	WiFi, TUYA Solution
Power Requirements	3 x AAA Batteries (Included)

Display

Display Configuration	Blue backlight with white digital readout (30 x 73 mm)
-----------------------	--

Analysis Features

Comprehensive Data Points

- Weight
- BMI
- Body Fat %
- Water Content %
- Muscle Mass
- KCAL
- Bone Mass
- Defatted Body Weight
- Visceral Fat Grade
- Protein
- Physical Age

Smart Features

App Functionality

- Automatic measurement transfer via WiFi
- Curve trend analysis for weight, fat, and BMI
- Multi-user profile support
- Step-on and auto-off functionality
