Product Overview

Comprehensive Body Analysis

This advanced smart scale features high-precision strain gauge sensors and ITO tempered glass for accurate, reliable measurements. Designed for the modern home, it uses WiFi connectivity to sync data automatically to a mobile app, making it effortless to monitor health trends for the whole family. With support for a wide array of body composition metrics, it provides deep insights into your physical well-being.

Technical Specifications

High-precision sensing technology and display specifications.

Maximum Weight Capacity

180 kg

Weight Capacity

Platform Dimensions	300 x 300 x 21 mm
Graduation	100 g
Surface Material	6mm ITO Tempered Glass

Smart Features

Connectivity

WiFi • Tuya Solution

Measured Values

- Weight
- BMI
- Body Fat %
- Water Content %
- Muscle Mass
- Bone Mass
- KCAL
- Visceral Fat Grade
- Protein
- Physical Age

Display & Power

Display Details

LCD (30 x 73mm) with blue backlight and white digits

Power Supply

3 x AAA batteries (included)

Alerts

Overload Indication, Low Battery Indication, Step-on Auto Off
