

Smart Gas Water Heater with Voice Control

This gas water heater is equipped with AI voice technology and WIFI remote control via a customized app. It includes real-time detection of CO/CH4 concentration, active air cut, automatic exhaust, and a built-in circulation pump for instant hot water.

Product Overview

Smart Gas Water Heater

This smart gas water heater offers advanced temperature control and efficient performance for residential use. With a high hot water capacity and an intelligent exhaust system, it ensures consistent and reliable hot water delivery. Its compact design and smart features make it an ideal solution for modern households seeking efficiency and safety.

Performance Metrics

Key Performance Metrics

16 L/min

Hot Water Capacity

30 kW

Rated Heat Input

Water Pressure Range

0.02~0.8 MPa

Technical Specifications

Energy Efficiency

Level 2

Exhaust System

Constant temperature strong exhaust
