

Smart HEPA Air Purifier with UV Sterilization

This air purifier is designed to purify indoor air using a multi-stage filtration system. It removes airborne pollutants, allergens, and harmful particles with its HEPA filter, activated carbon filter, and UV-C light.

Overview

Advanced Air Purification System

The K06C Air Purifier is a comprehensive solution designed to improve indoor air quality in homes and offices. It utilizes a multi-stage filtration process, including a True HEPA filter, activated carbon, and UV-C sterilization, to effectively remove 99.97% of airborne particles as small as 0.3 microns. With smart features like a built-in sensor and remote control, it provides an easy-to-maintain and efficient way to neutralize odors, allergens, and airborne contaminants.

Key Features

Filtration Stages

- Pre-filter (captures large particles)
- Cold Catalyst Filter (catalyzes formaldehyde, benzene, TVOC)
- Antibacterial Filter (removes microbes and bacteria)
- Honeycomb Activated Carbon Filter (eliminates odors)
- True HEPA Filter (99.97% particle removal)
- UV-C Sterilization (kills viruses and bacteria)
- Ionizer (neutralizes airborne contaminants)

Smart Features & Controls

Filter Replacement Reminder, Children Lock, Clock, PM2.5 Display, Touch-screen, Remote Control

Performance Metrics

Performance Metrics

320 m³/h

CADR

38 m²

Application Area

50 million/cm³

Negative Ion Output

17.4 dB

Noise Level

Technical Specifications

Physical Dimensions & Weight

Metric	Value
Product Dimensions	370 x 195 x 650 mm
Package Size	470 x 280 x 740 mm
Net Weight	8 kg
Gross Weight	11 kg

Electrical Requirements

Parameter	Specification
Voltage	220V/50Hz
Power Consumption	60W

Design & Material

Chassis made of ABS plastic in white color.

Certifications

Quality and safety certifications including CE, CB, and ISO9001:2008.

Standards & Certifications

ISO9001:2008 • CE • CB • CCC • CQC • ERP
